

Interactive Tutorial 1: Markdown

Working with Markdown

Press `ctrl + shift + m` to open a formatted preview on the right.

Basic Text

Write two sentences about yourself, each in a different paragraph.

My name is Tommy.

I am on the Dissolved Gas subteam.

Headers

Make a 3rd level header with your name:

Thomas Bradford

Emphasis

Write 4 of your favorite words using each type of emphasis:

Pie

Catastrophe

Indentation

`epiphany`

Lists

Make an ordered list of 3 things you hope to achieve this semester, and elaborate on them with sub items. Then, make an unordered list of 3 classes that you're taking this semester:

1. Determine the fluidization velocity

1. Determine the corresponding flow rate
2. Evaluate the effectiveness of the reactor.
 1. Acquire DO Meters
 2. Record the system's temperature
3. Consider scaling up a reactor that functions properly.

Links

Write a sentence describing your major, and insert a link to your major's department website:

I'm going to be a [ChemE](#), designing and optimizing chemical processes.

Images

Insert the Cornell seal image with:

1. A relative file path(`/images/Cornell_University_seal.png`)
2. A URL
(https://raw.githubusercontent.com/AguaClara/aguaclara_tutorial/master/Images/Cornell_University_seal.svg)

Using a URL:

 CornellSeal

Code Formatting

Put the name of this file in an in-line (single backtick) code format.

`Interactive-Tutorial-1-Markdown.md`

Put the following text in a Python-formatted code block:

```
def foo():  
    print("Particles of a feather...")  
    print("...floc together!")  
  
def foo():  
    print("Particles of a feather...")  
    print("...floc together!")
```

Tables

Create a table listing your 3 favorite animals, books, and places on campus. Use a different alignment for each column.

****Table of Favorites****

Animals	Books	Places on campus
Corgi	Harry Potter	Goldie's
Koi	Lord of the Rings	Cascadilla Gorge
Sloths	The Picture of Dorian Gray	Ivy Room

Blockquotes

Write your favorite quote. It must be attributed to Albert Einstein.

```
"Hello. It's me."  
-- Albert Einstein
```

Horizontal Rules

Add a horizontal rule:

LaTeX Formatting

Copy the equation towards the end of the [Markdown tutorial](#) and paste it here:

$$a^2 + b^2 = c^2$$
